SUBJECT AND AUTHOR INDEX

This is the ninth triennial index to *Educational Research*. As a result of NFER-NELSON's decision to involve Carfax Publishing Company in the promotion and distribution of the journal, volume numbers have been brought into line with the calendar year.

In consequence the November 1982 issue was exceptionally numbered Volume 24, Number 4, and the three issues to appear in each subsequent year (in February, June and November) became Numbers 1, 2 and 3 of the new volume.

This index thus covers the following: Volume 24, Number 4 (November, 1982); Volume 25 (1983); Volume 26 (1984); Volume 27 (1985).
